ANNOUNCEMENTS

- Today's student panel will not be recorded. Recording will resume in **Part 2** of the session.
- All materials will be posted in **LRC Programming/Events** webpage.
- During the presentation, please, remain muted.
- Q&A will take place at the end of the presentation.
- Funding to cover the ACTFL's member registration fee for the course "**Making AI Work for Language Teachers**" (Maureen Lamb) will be available to interested instructors. Please email your request to <languageresourcecenter@northwestern.edu>.
- At the end of today's session, you will receive a link to a brief survey.

STUDENT PERSPECTIVES, PEDAGOGICAL POSSIBILITIES

Student Panel

Anna Luce, Lead Learning Engineer
Teaching and Learning Technologies
Northwestern University

Denise Drane, PhD., Sr. Associate Director for Research and Innovation
Eun Y. Sandoval-Lee, EdS., Project Administrator of Strategic Initiatives
Searle Center for Advancing Learning and Teaching
Northwestern University

SESSION 4 AGENDA

Part 1: Student panel on the use of AI

Part 2: Instructor perspectives on the use of AI

SESSION 4 GOALS

- Explore student and instructor perspectives about AI
- Reflect on your intentions around AI in your teaching

01.

STUDENT PERSPECTIVES ON THE USE OF AI

FACILITATOR / MODERATOR

Anna Luce

Lead Learning Engineer
Northwestern IT Teaching and
Learning Technologies

PART 1 GOALS

- Listen to student perspectives on the use of AI
- Provide a chance to ask students questions about AI in a safe environment

(This portion of the session will NOT be recorded.)

NORTHWESTERN STUDENT SURVEY

Generative AI Use Among Undergrads

"How often do you use ChatGPT or other generative AI for academics?"

Data from The Daily Northwestern's fall 2024 undergraduate poll. New transfer students and students in their fifth year were omitted due to small sample sizes. n =1112 (Graphic by Danny O'Grady)

CRITICAL REFLECTION ON PEDAGOGICAL POSSIBILITIES

FACILITATORS

Denise Drane

Senior Associate Director of
Research and Innovation

Eun Y. Sandoval-Lee

Project Administrator of
Strategic Initiatives

The Searle Center is committed to upholding these values in all facets of our work:

- Critical Reflection 
- Multi-vocal Evidence
- Meaningful Learning
- Diverse Collaborations

PART 2 GOALS

- Explore **instructor feelings** about AI
- Engage in a **SWOT analysis**
- Review a **scoping literature review** about AI and language teaching
- Reflect on **one action** to (not) integrate AI

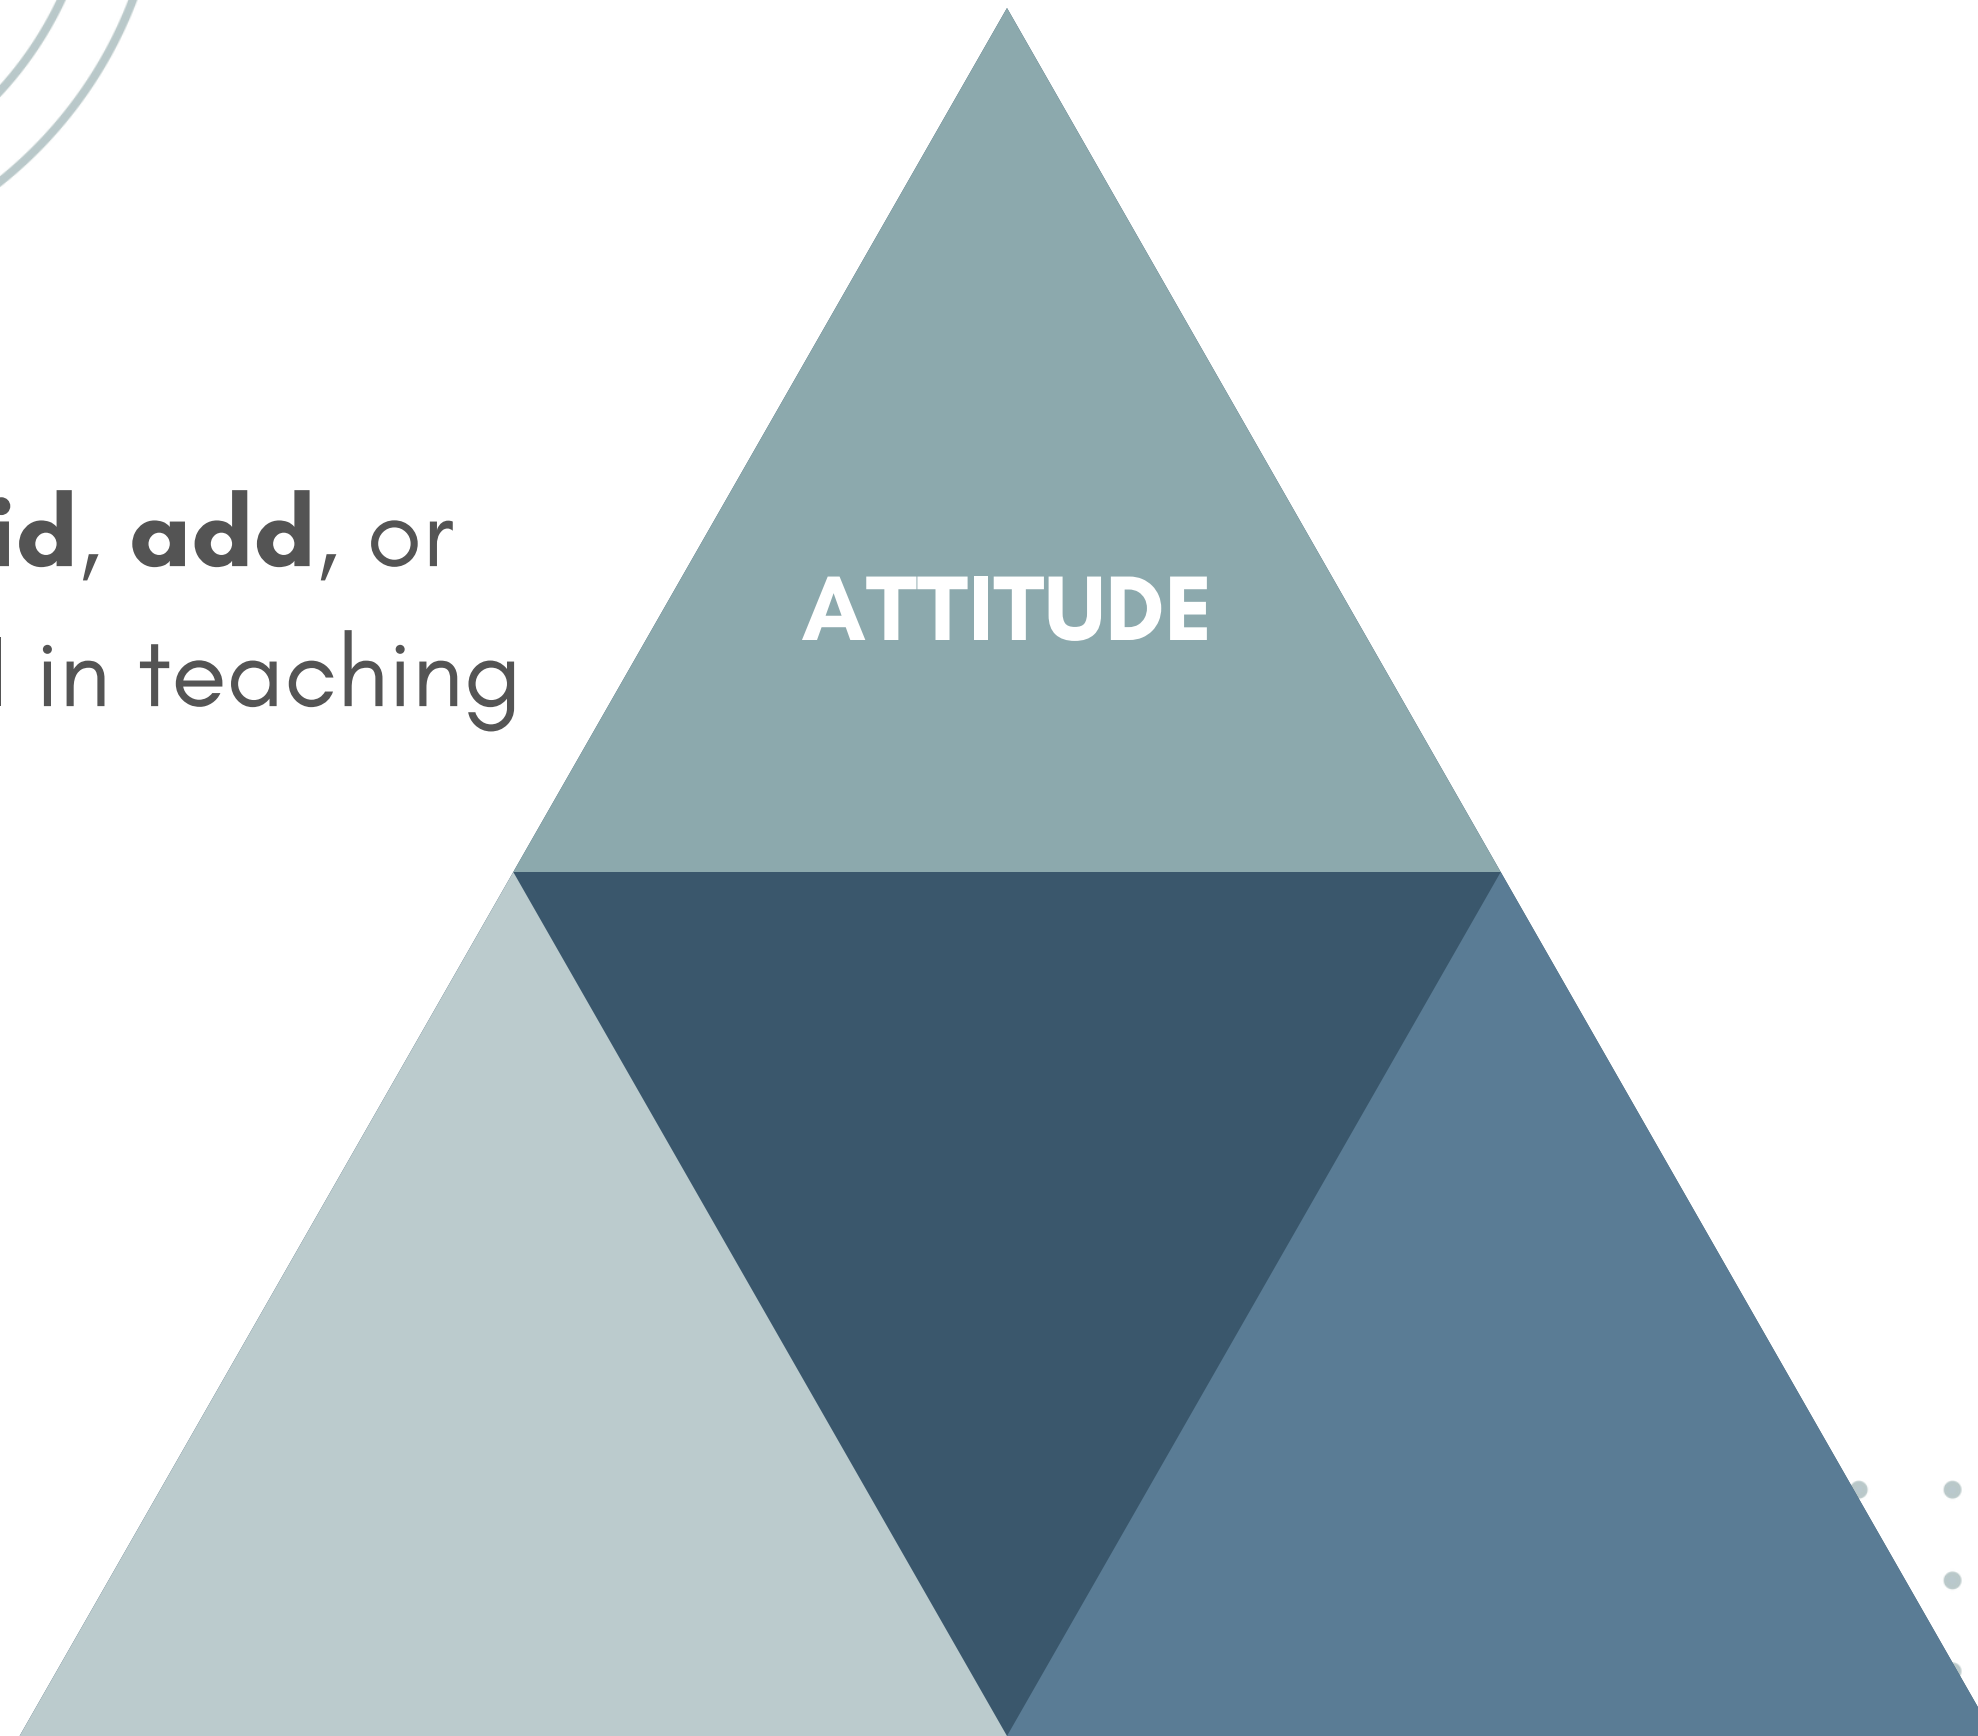

ZOOM POLL

How are you feeling about using AI for teaching language?

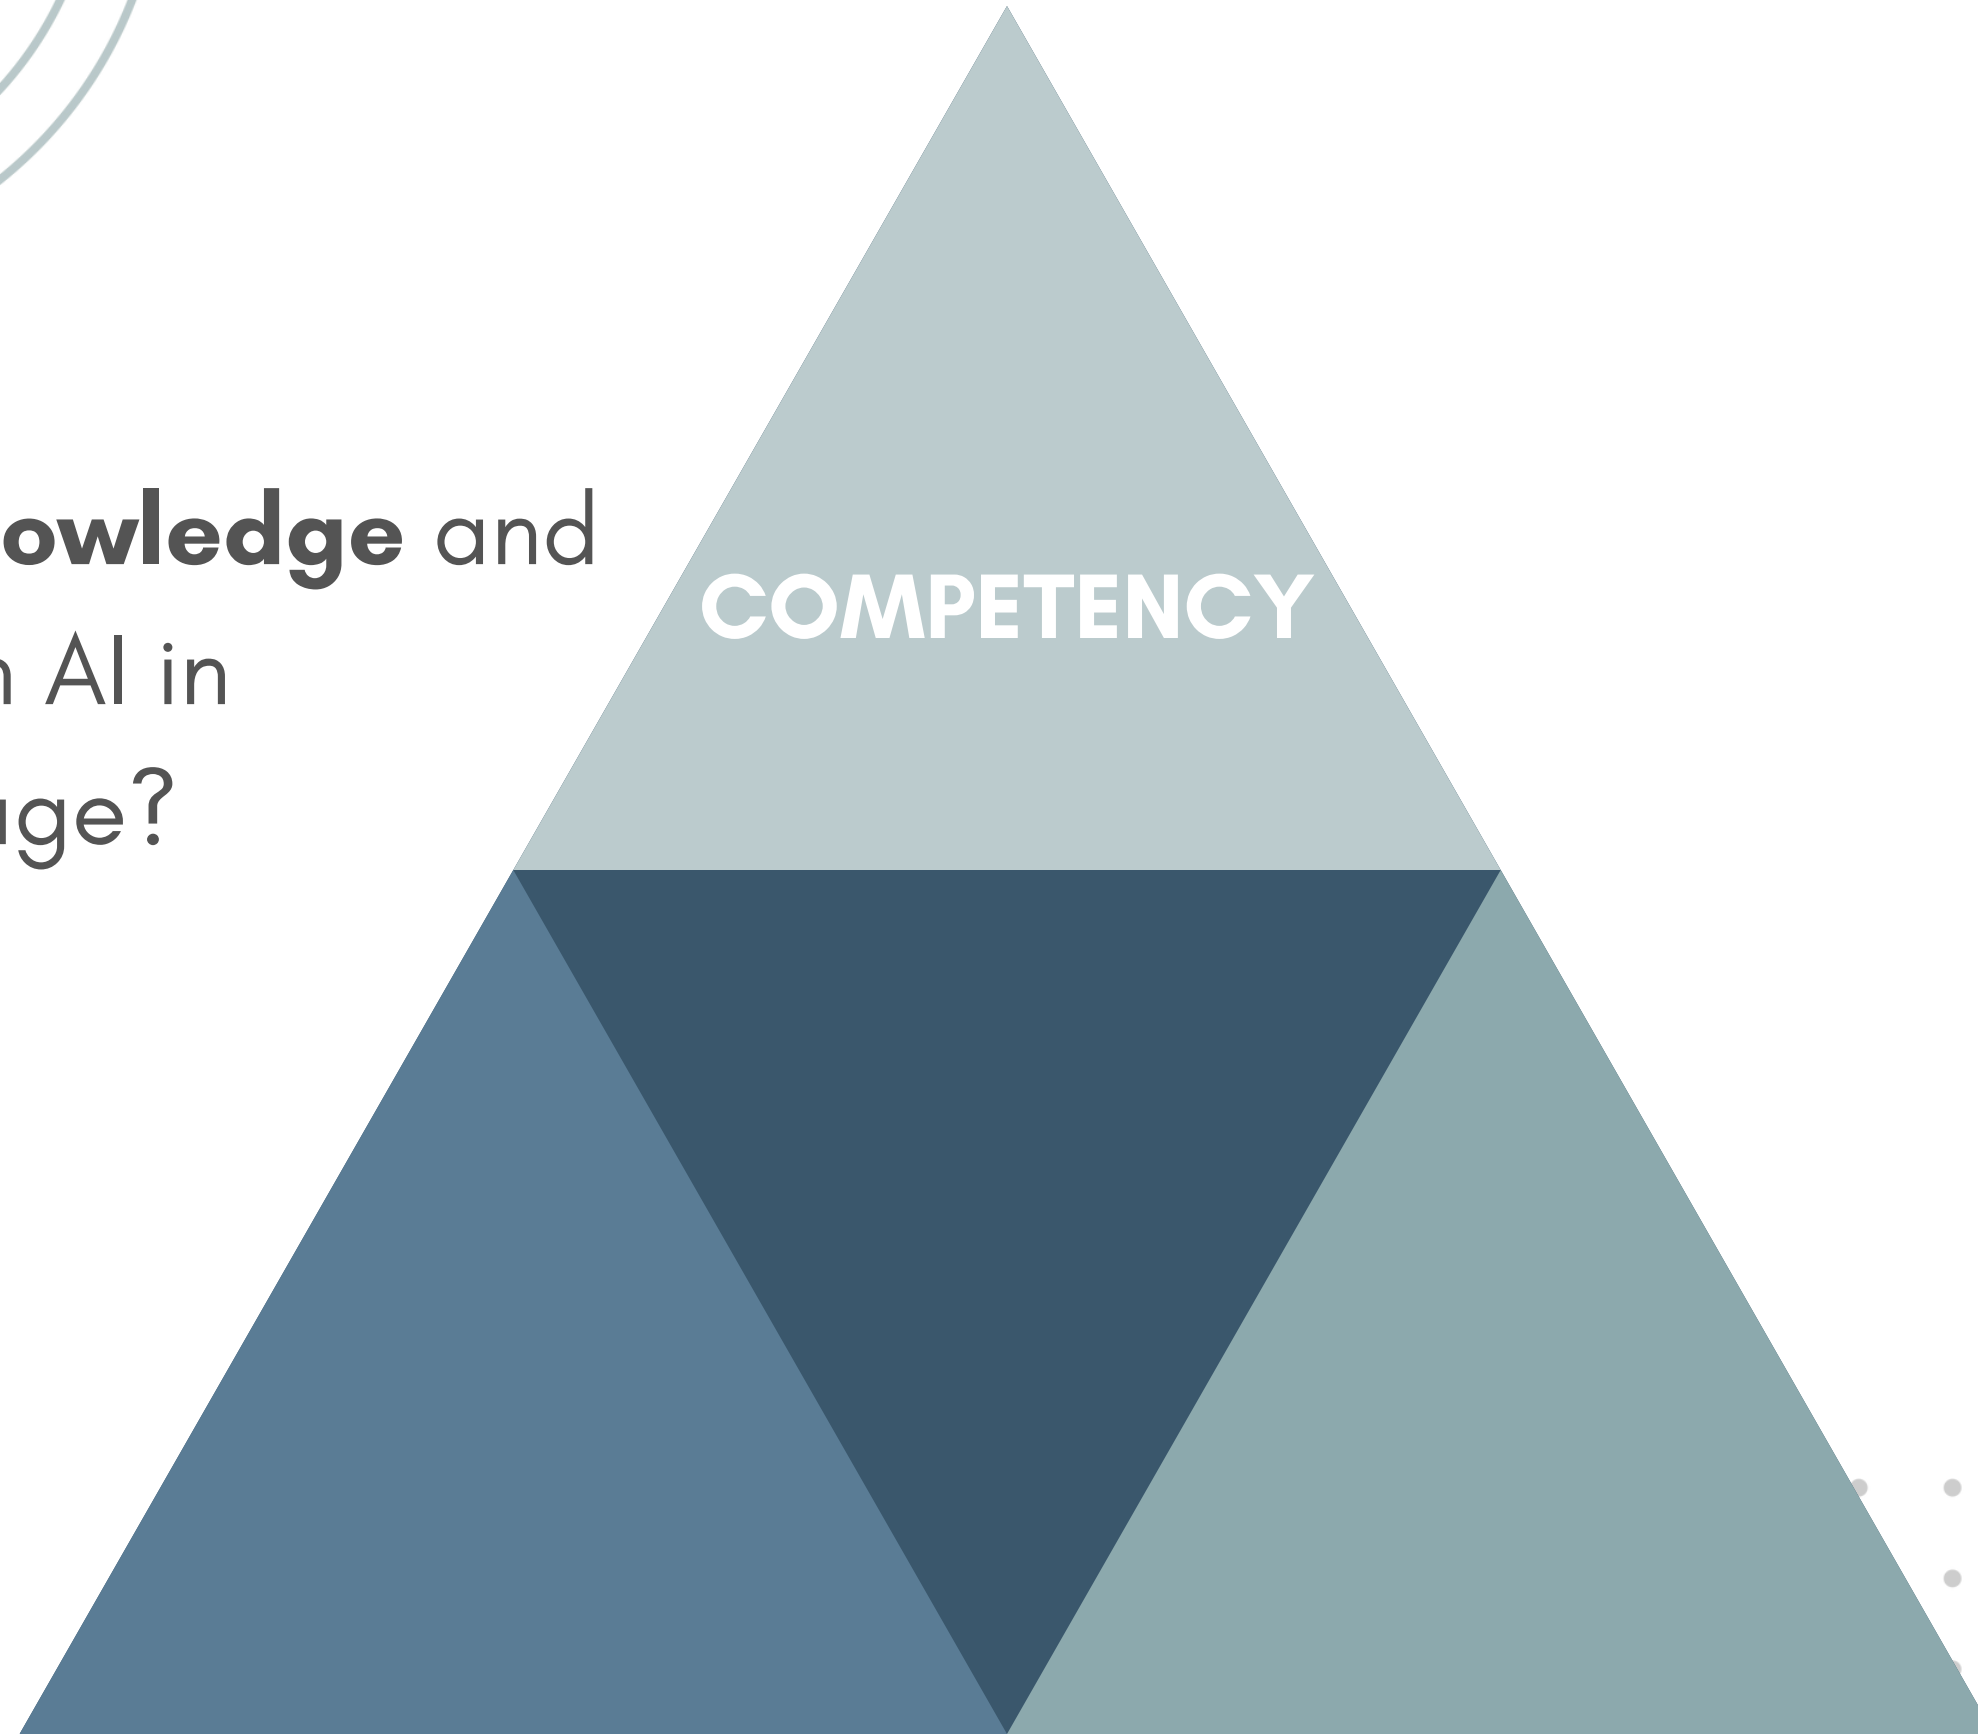

How do we **avoid, add,** or **advocate** for AI in teaching language?

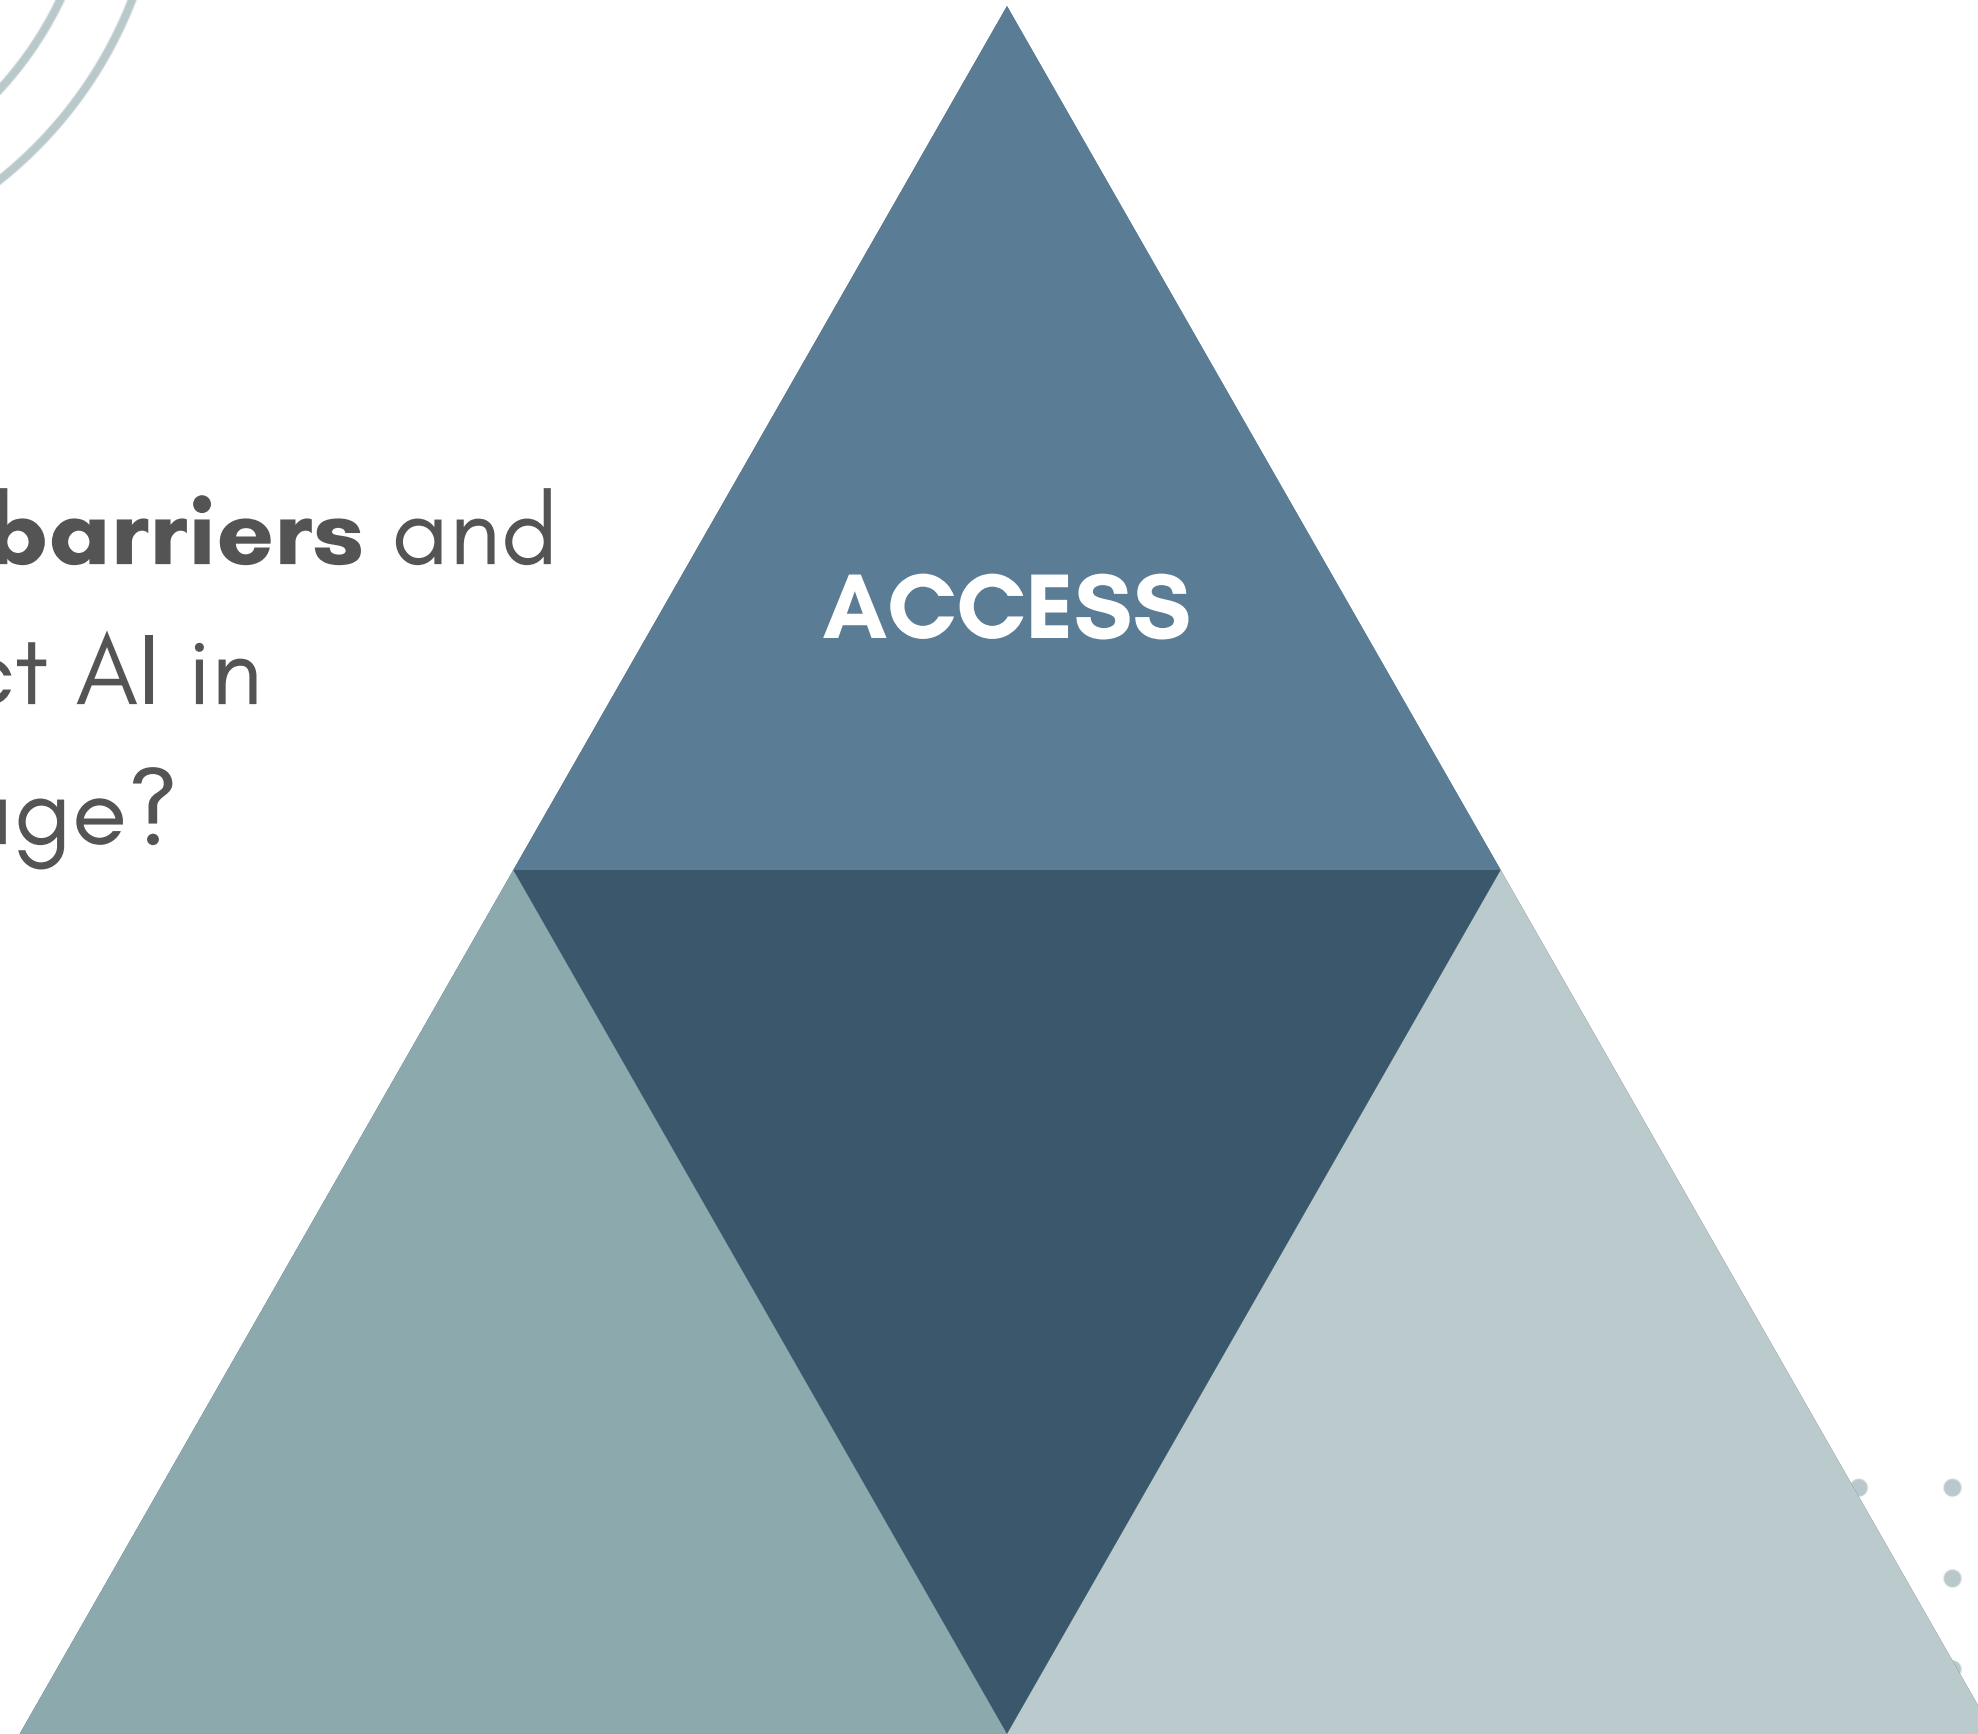

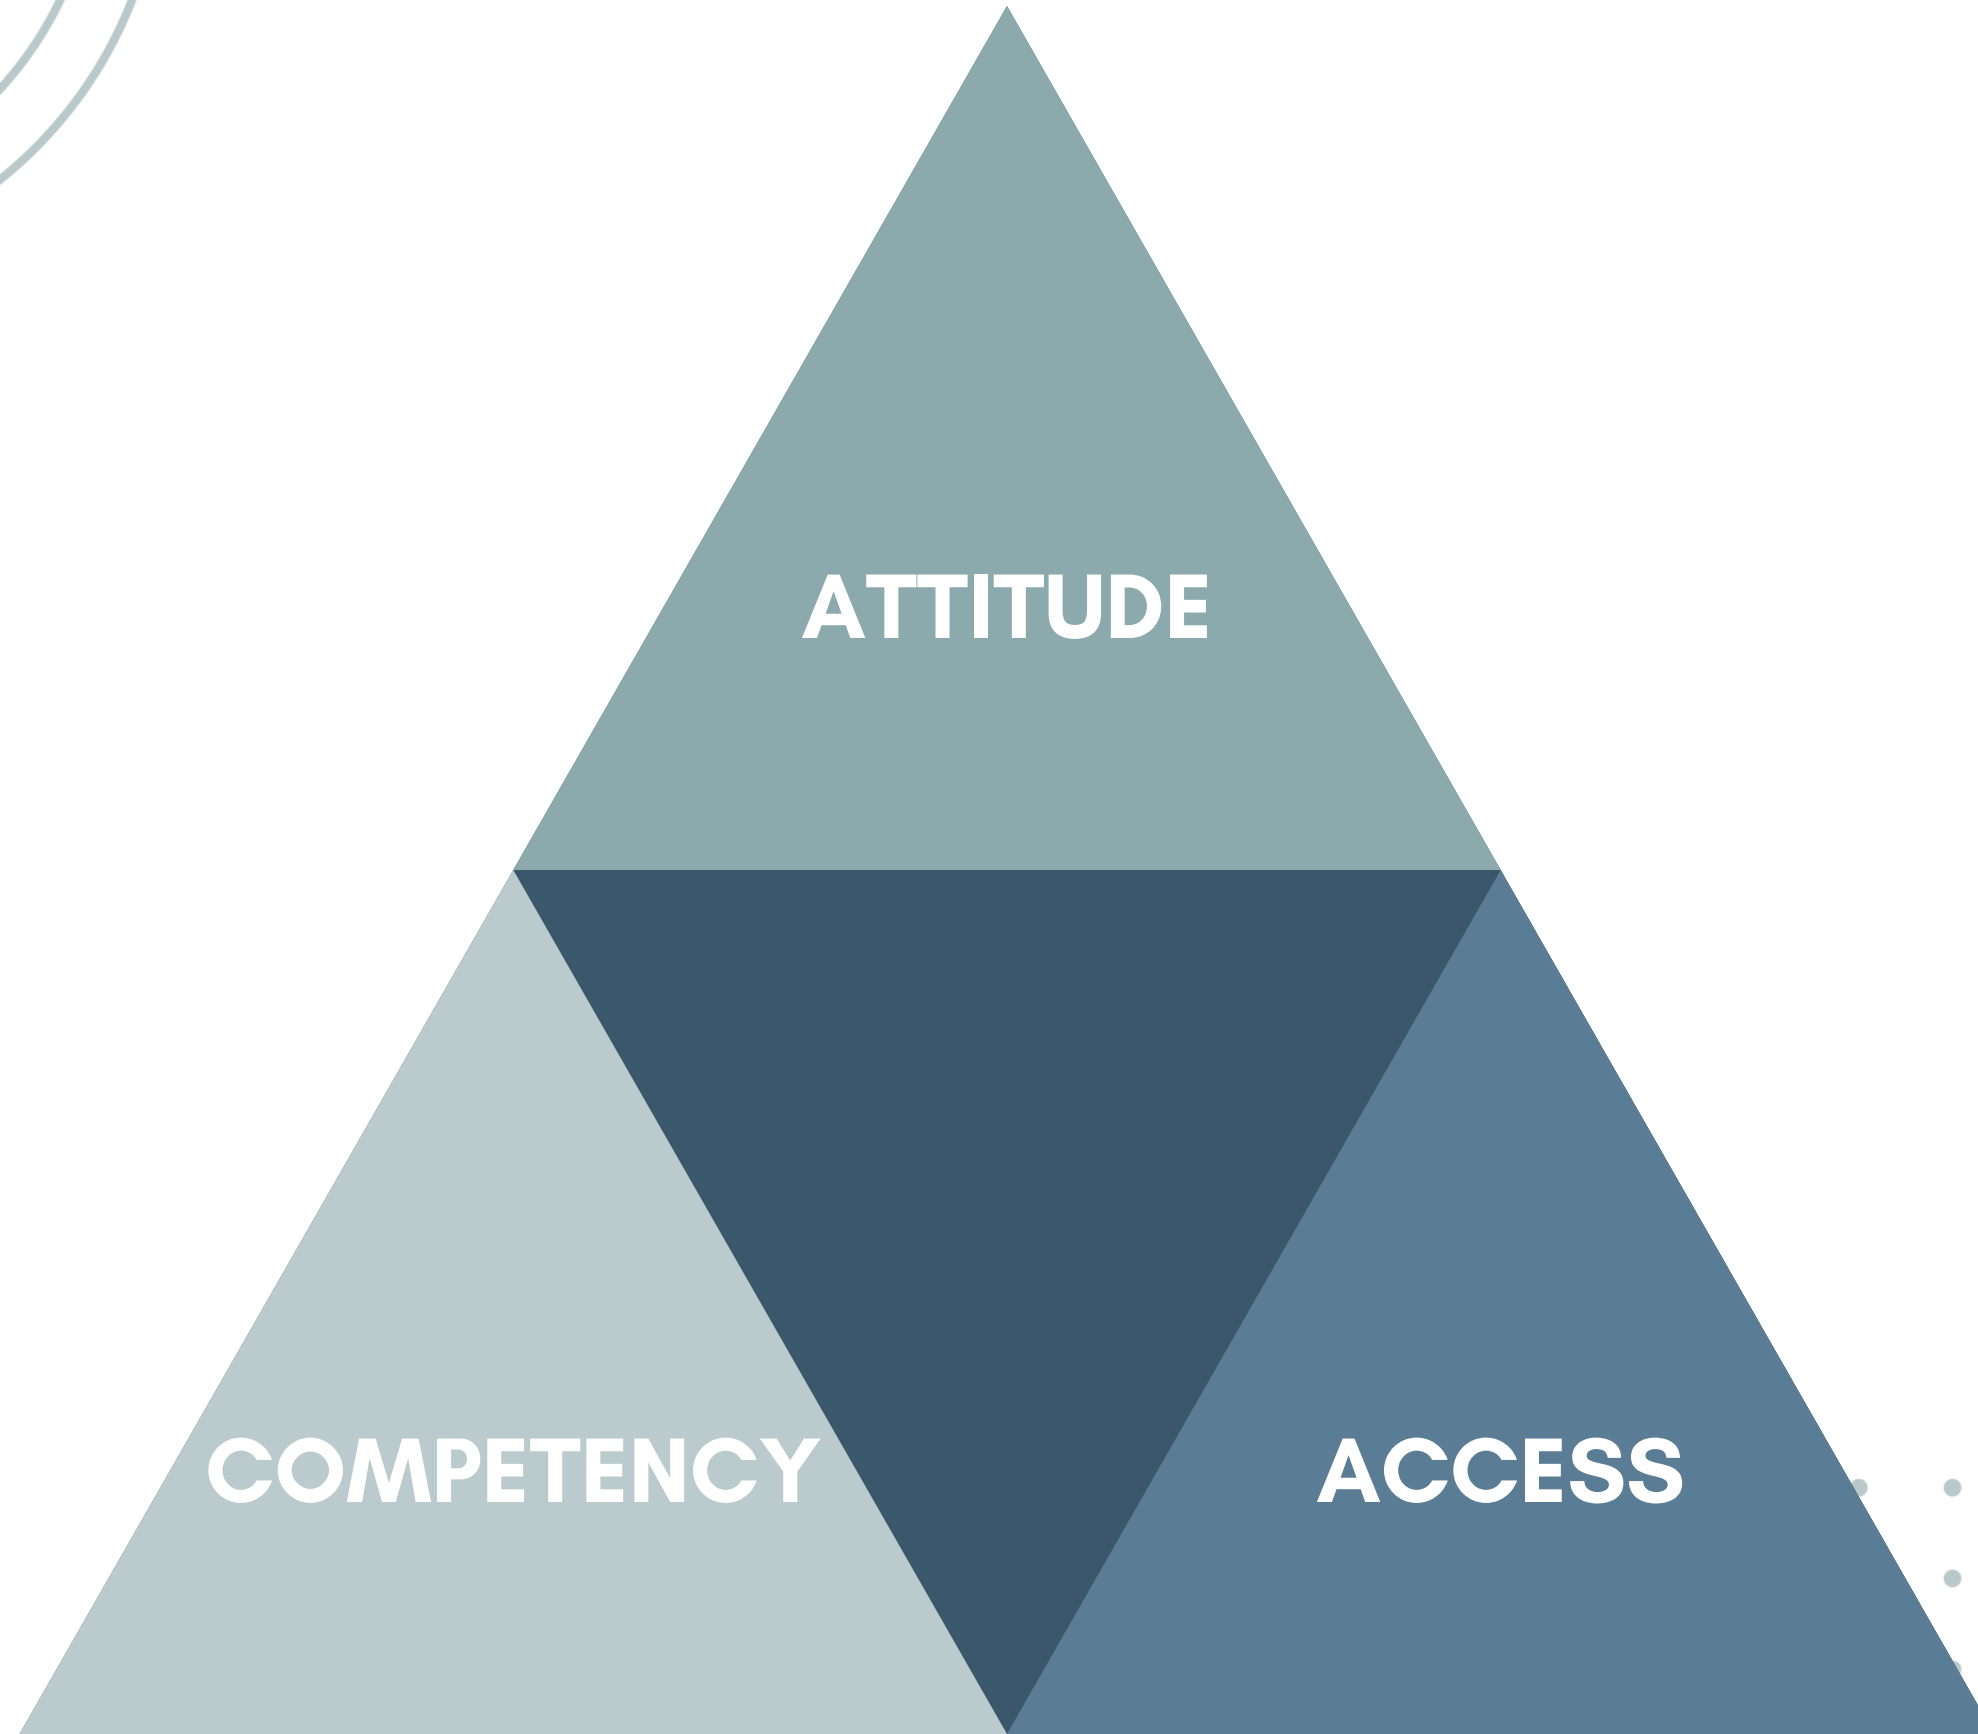

What are our **knowledge** and **skills** levels with AI in teaching language?

What structural **barriers** and **supports** impact AI in teaching language?

"Make no mistake, our students are using generative AI. A LOT. But, like us, they're a heterogenous group of people. There are students who, like some of us, are excited about AI as a tool that will help human beings do more, better. But there are also students who are worried. Worries I've heard include: navigating classes with vastly different approaches to and policies on AI and Academic Integrity; decreasing skills and content knowledge due to an over-reliance on AI; AI literacy as a requirement of employability; ethics, equity, privacy, environmental costs, and the unknown. Trust me, whatever you're feeling on this, **you are not alone.** Your students are feeling it, too."
